Welcome!

**DRK family centre and
nursery "Dreamland"**

DRK family centre and nursery "Dreamland"

The family centre and nursery „Dreamland“ is located in the outskirts of Enger in a quiet residential area and is surrounded by lovely fields, meadows and forests.

The former British school building that now hosts the nursery is located near the local music school, the youth welfare office and the school for geriatric care .

Just a short stroll through the park away the inner city of Enger as well as the town´s cultural attractions can be easily visited with the children.

Our nursery hosts five groups with children from the age of four month to six years.

All groups are run by our trained, friendly and helpful staff.

Moreover, we offer the children a freshly cooked daily Lunch meal and the possibility to rest and sleep in a cozy environment.

Besides, children can play in our beautiful outdoor area which stretches over 1500 square metres.

Deutsches
Rotes
Kreuz

Our institution is part of Red Cross for the Herford region and is dedicated to and based on the seven principles of the Red Cross:

- humanity
- impartiality
- neutrality
- independence
- voluntaries
- unity
- universalism

Work in our institution is based on the Needs and the well-being of the children we care for and we are proud of it.

We want the best for every single child as well as the groups and thus our well-trained and experienced staff plan and offer a wide range of fun and education activities based on the needs and preferences of the children we care for.

Key aspects of our work:

Education:

We aim to bring out the best in every child and therefore offer a range of early learning activities.

Language and sports:

Sports, language competence and games should be part of a child´s daily routine and are important for the development of every child.

As they also enhance learning and general life competences they are an integral part of our pedagogic concept.

Early learning programs:

- programs for under 3- years olds
- programs for children with immigration background
- pre - schooling programs
